When a MAN— or a COTTON PLANT Needs FOOD

At the end of a hard morning's work, your whole body needs to *ache* for food. It sure feels fine to put your feet under the table and enjoy your dinner.

Your noonday meal gives you the strength to keep going until nightfall.

Things are not much different with a cotton plant. You put fertilizer under it—and that's a kind of breakfast. It carries the plant along to chopping time.

Then is when every plant standing in your fields ought to be side-dressed with 150-200 pounds of Nitrate of Soda.

They will all repay you for that good "dinner" of plant food by churning right up and making cotton for you to the end of the season.

Not what we say. But what clear-headed, practical cotton growers all around you do. They make dollars-and-cents profits feeding their cotton at chopping time with this one food that carries it on to a high yield maturity.

And Nitrate of Soda gives the same money-making results when side-dressed on corn.

Just cut out this advertisement and write your name and address in the margin. Then mail it to us. We will send you, without any penny of cost our little book "Side-Dressing Cotton and Corn." Our manager is a practical cotton grower and knows just what conditions call for here in "Hama," the Cotton State.

On last Thursday night Basin School had her closing exercises. Those receiving their certificates were: Ninth grade—Marie Rhodes, Ralph Calhoun. Sixth grade—Morine Moore, Estelle Williams, Laurie Cain, Wilson Meeks, Roosevelt Fuller, Orion Dobbins, Howard Moody.

The class history was read by Marie Rhodes. The class promenade was read by Ralph Calhoun. Bible reading and prayer were given by Prof. N. W. Rhodes of Brooklyn school.

Commencement songs were sung by the school children. After the commencement exercises the high school and sixth grade gave a negro minstrel. Miss Madge Pace, teacher of the sixth grade, trained the children for the minstrel. She also took a part in the play. A very pretty woman she furnished much fun and pleasure for all. Mr. and Mrs. Vernon Voss on violin and guitar furnished the music.

Most of the teachers will attend summer school at the University of Alabama, and Miss Cook at A. P. L. Auburn. The attendance at Basin was large until the end of school, and we hope next year to again have a seven month school.

Coffee County Probate Judges

JUDGE F. M. RUSHING

(By Judge J. A. Carnley)

Judge F. M. Rushing was the seventh Probate Judge of Coffee County. He was born in 1833, in Montgomery County, and was the son of Malachi and Telitha (Dykes) Rushing, both natives of Beaufort District, S. C., who removed to Montgomery County in 1818, the former a farmer, and a soldier in the War of 1812. He was a grand son of Matthew Rushing who was born, lived and died in South Carolina, and whose wife moved to Alabama, and died in Pike County. Judge Rushing was left an orphan when he was about 12 years old, and was reared by his mother, Telitha Dykes, a few years later. Both received a liberal education, and in their native state of S. C. he obtained a fair education.

At the age of 22 years Judge Rushing became a clerk in the office of Judge P. D. Costello. This was in 1855. He continued as such clerk until 1857, when he became a clerk in a store, and at the same time read medicine in office of Dr. J. P. Blue and Dr. J. G. Moore. He was graduated from the medical department of the University of Louisiana, M. D. in 1861, and commenced practice at Elba, where he remained until 1862, when he was made surgeon of the Twenty-fifth Alabama, and spent some time in Corinth, Miss. He resigned because of ill health, returned home, and then practiced at Colliock until 1863, when he joined the home guards as first lieutenant and served in the Alabama, Pensacola and other places.

While a practicing physician Judge Rushing was a member of the State Medical Association, was one of the counselors for six years and president for some time of the Coffee County Medical Society.

Dr. Rushing was a popular citizen, very active in County affairs, and was elected to the Legislature in 1878, and in 1880 to the State Senate from Coffee, Henry, De Kalb and Geneva Counties, during which time he introduced several measures that became laws. In August 1882 he was elected Probate Judge of Coffee County and was re-elected in 1888, serving in all twelve years.

Fred Miss Ada Ham who died a few years after his death. Gen. M. Rushing, who is a physician at Durant, Oklahoma. Fannie M. Tupp, Delia and Minola. Mr. Tupp Rushing is

now located at McAlister, Okla. home. Miss Delia died many years ago. Miss Fannie M. Rushing married Mr. W. W. Ham, and now resides in Elba. Miss Minola married Mr. Leibel, and she now resides in Elba. Her husband having died several years ago. Judge Rushing's wife died in 1877, and he never married again.

We cannot trace the ancestry of Judge Rushing further than his grandparents, his paternal grandfather, Matthew Dykes, and his maternal grandfather Dykes. They both died in South Carolina. Grandfather Dykes, where he lived with his mother was a little girl.

Judge Rushing's father, Malachi, was born in 1792, and his mother, Telitha Dykes, a few years later. Both received a liberal education, and in their native state of S. C. he obtained a fair education.

POSTOFFICE IS CHEAPER THAN SICKNESS.

Spring is at hand! It is time to clean up. Clean home surroundings are equally as important to the health of a community as clean restaurants, stores, markets, dairies, etc. Clean home premises will make your city more healthful for residents and more attractive to visitors.

Keep your yard, front and rear neat and clean and ask your neighbors to do likewise. Collect and remove or destroy the scattered cans, paper and useless rubbish and burn the weeds. Plant in their places trees, shrubs, vines and flowers. The most careless and disrespectful persons will not throw refuse into a well kept garden or lawn.

Provide receptacles for the refuse that is brought into the streets on market or hog day or any other business day. Let outsiders know that you want to have a clean city and make it convenient for them to help you keep it so.

PENNY WISE AND POUND FOOLISH

The "Penny Wise" individual always runs purchasing cheap inferior glasses. He is in reality "Pound Foolish."

Inferior glasses injure the sight, and this incapacitates the individual, whether bank president or street sweeper. He whose eyes are defective has his earning power reduced.

My glasses assure comfortable, normal earning power, at prices well within reason.

RESOLUTION OF COMMISSIONERS COURT, APRIL 5, 1927.

Whereas, many claims have been filed against the County for lumber and road and bridge building and repairing materials which have been sold by persons without authority of the County Court Commissioners and which the Court cannot know are correct charges against the County;

And Whereas, the Court of County Commissioners are undertaking to conduct the affairs of the County upon a cash basis and to purchase no more than can be promptly paid out of the income of the County;

Now, Therefore, it is ordered that notice be published to the effect that nothing should be sold to and charged against the County without written order from some one duly and legally authorized to bind the County in the premises, and hereafter these written orders must be attached to the claims filed for payment.

Adopted this April 5, 1927.

Bridge Work.

Whereas, a heavy program of road and bridge work has been followed for the past months, exceeding the current revenue; and

Whereas, it is the purpose of the Court of County Commissioners to stay within the income of the County and to pay cash for labor and building and repairing materials; and

Whereas, the County is now running behind in payments of lumber and other road and bridge building supplies and road machinery and repair parts; and

Whereas, it is necessary to make some repairs of Road Machinery and to reorganize road crew work—

Now, therefore, it is resolved by the Court that road and bridge work in the County be suspended during the months of May, June and July, 1927, in order that the County may be kept on a cash paying basis and debts be avoided and the County credit preserved.

Adopted April 5th, 1927.

The foregoing are copies of the resolutions adopted.

A COTTON PLANT is Like an AUTO

A CAR can go just about so far on a
barrel of gas—and, if it goes any fur-
ther, it can only do so by coasting down hill.

Same way with a cotton plant. It starts
out with a full "tank" of growing power.
That's the fertilizer you put under it.

But along about chopping time, you
need to "fill her up" again by side-dress-
ing 150 to 200 pounds of Nitrate of Soda
per acre.

Then your cotton plants don't
have to "coast". Instead they
pick right up and carry along to
maturity under full growing
power supplied by that side-
dressing of Nitrate of Soda.

Thousands of cotton growers
have tried it and proved it for
you. They own good places, wear good
clothes and drive good automobiles today
because they can turn out bale-to-the-acre
cotton. And that pays them no matter
what price cotton goes to.

They know side-dressing pays
with corn, too.

How about you? Are you willing
to profit from the experience of
others—or to try it for yourself?

Just cut out this advertisement
and write your name and address
in the margin. Then mail it to us.
We will send you, without one
penny of cost, our little book
"Side-Dressing Cotton and Corn."

Our manager is a practical cot-
ton grower and knows just what
conditions call for here in "Bama,"
the Cotton State.

Chilean Nitrate of Soda Educational Bureau

421 Shepherd Bldg., Montgomery Ala.

The "Autumn Method"
calls for 100 lbs. of Nitrate
of Soda per acre—50 lbs.
at planting, 50 lbs. and
phosphate and 50 to 100
lbs. potash; 150 lbs. aside-
dressing after chopping.
By this method, 1071
Alabama Club Boys on

bales.

Alabama
Joe Abbott, winning Boys'
Club member, Easonville,
made 2345 lbs. of seed
cotton on his acre by the
